

# О компании Point Mobile

# О компании Point Mobile

До 2012 года компания фокусировалась на производстве OEM и ODM терминалов для других крупных игроков в индустрии мобильных устройств. В 2013 году миру были представлены первые терминалы под собственным брендом Point Mobile, а сейчас продуктовая линейка содержит полный спектр устройств от портативных мобильных компьютеров, надежных смартфонов, интегрированных мобильных платежных устройств, медицинских терминалов до считывателей RFID и портативных Bluetooth-сканеров. Кроме того, Point Mobile предлагает широкий ассортимент разнообразных аксессуаров: многослотовые зарядные устройства, автомобильные зарядки, держатели, и т.д.

Национальный рынок TOP 1

# О компании Point Mobile

В отличие от других крупных производителей, мы делаем все самостоятельно от концепции и дизайна до производства. Каждая деталь создается с целью обеспечения абсолютной прочности внутри и снаружи. Это не только гарантирует высокое качество продукции, но и делает внедрение простым и быстрым в соответствии с отраслевыми стандартами.

## PULS

**PULS** is Point Mobile's lifetime solution, which extends the lifetime of Android-based Point Mobile devices to up to **seven years after a product launch**. Security patches, updates and upgrades to newer Android versions<sup>1</sup> are provided during the entire lifetime of a device, which protects your data and gives you the benefit of using all the latest features the newest Android operating system has to offer.

Stay up-to-date with the latest updates for **7 years**

Get **the latest Android** version and new features

**Security patches** are provided regularly

Conveniently update your devices in the field by **FOTA**

<sup>1</sup>Upgrades to a newer Android version may require additional cost. Please contact your sales manager for further information. For more information about PULS, please visit: <https://pointmobile.com/en/products-business-puls>

# Android Concept:

EmKit™

**The Enterprise Mobility Kit (EmKit™)** is Point Mobile's value-added service kit engineered for the pure benefit of system integrators. Experience software services as intelligent as the ruggedness of our industrial handhelds - fully compatible with all our Android GMS certified devices.

---

A complete set of tools that will shift the productivity of the workforce to the next level

## Business Tools

- PTT (Zello, initial T, Cybertelbridge)

---

Make a cohesive team workflow by using solutions that help easy and timely communication

# Android Concept:

EmKit™

When customers manage multiple devices in their enterprises, Point Mobile's unique provisioning solution can help maximize productivity and minimize resources to prepare their devices – free of charge!

Among all convenient tools, the two most used in EmKit™ are **Direct Clone** and **Scan2Stage**.

## Direct Clone

Solution for restoring the devices to the same settings with no internet connection. With Direct Clone, a Master PDA becomes a hotspot server and sends its backup file to nearby client devices to clone the settings.

## Scan2Stage

PC tool for provisioning Point Mobile Android devices. With Scan2Stage, IT administrator can prepare the settings of the device and make QR code for Scan2Set.
